About Me

Motivated and detail-oriented IT graduate with hands-on experience in troubleshooting, customer service, and front-end technologies including HTML/CSS, JavaScript, and React/TypeScript. Skilled in diagnosing and resolving technical issues, supporting end-users, and ensuring smooth system operations. Experience also includes Unity programming and C#, providing a strong foundation in software development. Eager to contribute to a dynamic IT support or consultant role where I can grow professionally and help drive efficient tech solutions.

Skills

- Languages: C#, JavaScript, React, HTML, CSS
- Tools: Unity, Git, Visual Studio Code
- Areas of Focus: Game Programming, UI/UX, Web Design, Problem Solving, Customer Support
- Other Skills: POS systems, Team Collaboration, Multilingual (English & Arabic)

Education

- **Certificate III in information and communication technology**
Tafe NSW 2025
Gained foundational skills in programming, networking, technical support, and web development. Learned to troubleshoot ICT issues, install and configure operating systems, and manage workplace information securely. Developed effective communication, teamwork, and problem-solving abilities in ICT environments.
- **Bachelor of Games development**
SAE Institute 2022 - 2023
The Bachelor of Games Development at SAE University College provides students with skills in programming, game engine scripting, and asset production. Graduates are prepared for roles like game developer and gameplay programmer. The program offers flexible study options, including on-campus and online formats.
